

Mohamed Grissa

CONTACT INFORMATION	10 Faxon Ave Apt 914 Quincy, MA, 02169 Cell: (541) 908-2533	<i>E-mail:</i> grissamed@gmail.com <i>Website:</i> http://people.oregonstate.edu/~grissam <i>Linkedin:</i> linkedin.com/in/mohamedgrissa
EDUCATION	Oregon State University , Corvallis, Oregon USA Ph.D., Electrical and Computer Engineering, September 2018 <ul style="list-style-type: none">• Dissertation Topic: “Location Privacy-Preserving Strategies for Secondary Spectrum Use”• Advisors: Bechir Hamdaoui, and Attila A. Yavuz. Oregon State University , Corvallis, Oregon USA M.S., Electrical and Computer Engineering, June 2015. <ul style="list-style-type: none">• Dissertation Topic: “Location Privacy Preservation for Optimal Sensing in Cognitive Radio Networks”.• Advisor: Bechir Hamdaoui Ecole Supérieure des Communications de Tunis (SUP’COM) , Tunisia B.S., Telecommunications and Computer Networks, October, 2011.	
PROFESSIONAL EXPERIENCE	Circle Internet Financial Services , Boston, Massachusetts, USA <i>Software Engineer - Blockchain</i>	10/2018 - present <ul style="list-style-type: none">• I work on designing and implementing different blockchain technologies into Circle’s internal platform• I participate in establishing and maintaining the environments in which blockchain solutions can be implemented, including development, testing, and production environments• I am also responsible for maintaining a continuous integration pipeline for the development and testing of applications within Circle. Nokia-Bell Labs , Murray Hill, New Jersey, USA <i>Research Intern - Blockchain</i>
	<ul style="list-style-type: none">• Designed a digital health solution using blockchain technology.• Designed a consensus mechanism for handling transactions coming to the blockchain• Implemented and deployed a working prototype and a demo of the proposed solution• Implemented automation scripts to deploy virtual machines, install required libraries, and create private Blockchain networks on Geni Cloud• Tools: C/C++, Go, Python, Ethereum, Tendermint, Solidity, AWS, GENI Cloud.• This work resulted in a publication in IEEE INFOCOM 2018 (Top conference) and a patent submitted with Nokia. Oregon State University , Corvallis, Oregon, USA <i>Software Developer</i>	06/2017 - 08/2017 09/2013 - 06/2015 <ul style="list-style-type: none">• I Developed an Android app for ICARDA (UN organization)

- It helps collecting and managing agricultural data to/from EMBRAPAs (Brazilian governmental organization) database.
- Database: PostgreSQL, has millions of entries
- Tools: Eclipse, Android SDK, PHP.

Orange France Telecom Group, Tunis, Tunisia

Value Added Services Engineer

09/2012 - 08/2013

- Worked closely with the Project Managers on Solutions scoping, customization, and realization.
- Led few projects with team members from different departments (teams > 5 persons)
- Took a lead technical role in the deployment and successful integration of VAS products
- Participated in technical integrations, upgrades and expansions of VAS products.

SupCom, Tunis, Tunisia

Software Developer

01/2012 - 08/2012

- FireSense project, a Specific Targeted Research Project of the European Union's 7th Framework Program Environment.
- Participated in developing and integrating an early warning platform to remotely monitor areas of cultural interest from the risk of fire and extreme weather conditions.
- It includes a user-friendly interface in the control center that provides video on demand, weather condition information, sensors location and Real time data from the fires front and visualization of the fires propagation.
- Tools: QT, C++, Google Maps API, Java, OpenCV.

Telecom ParisTech, Paris, France

Software Developer Intern

01/2012 - 08/2012

- Designed an approach for rapid mapping of flooded areas using satellite images and Machine Learning Techniques
- The project was in cooperation with the Centre National d'Etudes Spatiales (CNES) and the European Spatial Agency (ESA).
- Tools: Satellite images, C++, QGIS, ArcGIS, ESRI, Orfeo toolbox, LibSVM

ACADEMIC
EXPERIENCE

Oregon State University, Corvallis, Oregon, USA

Graduate Research Assistant

09/2013 - 09/2018

- I designed privacy enhancing protocols in wireless networks and systems like cognitive radio networks, spectrum access systems in the 3.5GHz band.
- Published more than 11 research papers in top-notch journals, magazines and conferences and filed a patent.
- Research interests: Networks security and privacy, applied cryptography, cognitive radio networks, Blockchain technology, wireless networks, IoT, mHealth.

Oregon State University, Corvallis, Oregon, USA

Graduate Teaching Assistant

09/2013 - 09/2018

- ECE/CS 372 Introduction to computer networks, an undergraduate course averaging 100 students per term
- ECE/CS 476/576: Advanced Computer Networking: a grad level class averaging 30+ students

Oregon State University, Corvallis, Oregon, USA

Instructor: ECE/CS 372 - Introduction to Computer Networks

06/2014 - 08/2014

- An undergraduate course of 30 students.
- I taught the following topics: computer network principles, fundamental networking concepts, packet-switching and circuit-switching, TCP/IP protocol layers, reliable data transfer, congestion control, flow control, packet forwarding and routing, MAC addressing.
- Duties included also writing homeworks and exams, and grading.
